

COMFORT CLUB PLUS

Membership Agreement

Congratulations! You have just invested in "Comfort Club Plus" and as a member you're guaranteed superior planned maintenance on your heating, cooling and fireplace equipment... "Plus" more. You can expect our highly trained and competent technicians to become completely familiar with you and your needs.

As a Comfort Club Plus Member....

- You're now identified as a Priority Client, which entitles you to priority service over non club members.
- If you ever need emergency service, our office is open (just for you) 24/7 including all holidays.
- All repair parts and labor covered by this agreement are warranted for 2-years from the date of service.
- For **FREE** we will perform one Home Energy Tight Analysis on your home for energy waste.
- If you ever experience a problem and need our services, you'll receive a **40% Discount off** non-member diagnostic fees.
- You can apply 100% of your 3-year Service Club Membership toward the purchase of a heating/cooling/fireplace product.
- For **FREE** your home will be tested every year for that poisonous gas... carbon monoxide.
- Every year you'll receive our **Super Tune Up and Power Cleaning** on your equipment. If you experience a breakdown within 45 days of this service, we will return and correct the problems... **LABOR FREE**.

The sole purpose of our “Comfort Club *Plus*” is to provide you with utility savings and help reduce high cost heating and air conditioning repairs.

Our “Comfort Club Plus” is designed to avoid serious heating and cooling catastrophes in your home. We have found that many homeowners do not have the technical knowledge to be aware of potential heating and air conditioning problems. Nevada Heating has designed an on-going maintenance plan to assist homeowners in keeping their systems in like new factory fresh condition.

Benefits...

- 1. FREE MEMBERSHIP** – Your membership allows you to apply 3-years of your membership toward the purchase of a complete replacement of your heating and air conditioning system.
- 2. SAVES MONEY ON UTILITY COSTS** – Your heating, cooling, water heating, and fireplace will run at peak efficiency resulting in the lowest possible operating cost while delivering the maximum amount of comfort!
- 3. INCREASED CAPACITY** – With our maintenance plan, systems will achieve great capacity thus lowering utility bills.
- 4. MINIMIZE REPAIRS** – The most common problems with heating and cooling equipment comes from lack of maintenance. Clogged condensate hoses, blocked condenser coils, plugged pilot orifices, weak safety switches, and improperly set high limits are all problems waiting for the hottest or coldest day of the year to break down. These problems are minimized by having the equipment maintained on a semiannual basis.
- 5. DISCOUNTS, PREFERRED STATUS AND EMERGENCY SERVICE** – If for some reason a problem should arise not due to normal wear and a repair is required, we offer 15% discounts for parts and labor as one of our “Comfort Club Plus” member benefits. Since we offer 24-hour emergency service 365 days a year, a system will never be inoperable for more than the time it takes our technicians to arrive, diagnose, order, and install whatever new parts that are required.
- 6. INCREASE THE LIFE EXPECTANCY** – Not many people allow their cars to go for a long period of time without a tune up or oil change because common sense tells you that if you do, the car will not reach its maximum life expectancy. The same thing is true of a furnace and central air.
- 7. MAXIMIZE EFFICIENCY** – Studies have found if an air conditioning system is 23% undercharged it would result in a 52% decrease in efficiency. To eliminate this potential problem, we test all air conditioning systems electronically for the proper charge.
- 8. MINIMIZE HEALTH HAZARDS** – When we tune-up the furnace we make sure the heat exchanger does not have any holes or cracks that would allow carbon monoxide to escape into the home. We also check the flue to make sure nothing (dead birds, mortar, debris) is restricting the venting of the colorless, odorless gas. By the time that people know there is a problem, they are too disoriented to respond to the circumstances.
- 9. RELIABLE COMPANY** – Nevada Heating is one of the largest residential heating and cooling companies in the Reno/Sparks area. No company can grow in the service business unless they are a reliable company. Our number one corporate goal is **Total** customer satisfaction.
- 10. 45-DAY EXTENDED WARRANTY** – The standard warranty for our non-members is 7-day after the Super Tune Up. As a Club Member if you experience an emergency or your equipment is in the need of repairs after our service, we will return, labor free.
- 11. TRANSFERABILITY** – Allows for mobility. Should you move to another home within our area, your plan is fully transferable to your new home.
- 12. INFLATION PROTECTION** – You can look into a guaranteed price for up to three years, if you choose. Any price increase during the term of your agreement will not effect your price.
